

Bradigson Benito Nuñez

Training

Liceo Taiwán | ITLA

- At the Taiwan high school I did a bachelor's degree, and then I entered the ITLA where I studied Software Development, for me one of the best experiences.

Experience

FreeLancer Web Developer

I have done web projects for (for more than 2 years):

- Family
- Acquaintances (clients)
- Friends

I started in 2018 as a front-end developer at ITLA, and from 2019-2020, I began to carry out my first projects, and make myself known as a software developer to my close friends.

And in 2020 I won a contest called the popular challenge, from the Banco popular company, there I was a member of a team as a Software Developer, with the aim of creating an app for Banco Popular. And we won 2nd place.

Knowledge

HTML
CSS, Bootstrap, SASS, TailWind
JAVASCRIPT, React, React-Redux
