Education

Liceo Taiwán | ITLA

- At the Taiwan high school I did a bachelor's degree, and then I entered to the ITLA where I studied Software Development, for me one of the best experiences. Also graduated from the Dominico Americano.

Experience

FreeLancer Web Developer
I have done web projects for more than 3 years, I've made projects for

•**Acquaintances (clients)**

• **Friends**

I started in 2018 as a front-end developer at ITLA, and from 2019-2020, I began to carry out my first projects, and make myself known as a software developer to my close friends and too many clients.
And in 2020 I won a contest, called the challenge popular from the Banco popular company, there I was a member of a team as a Software Developer , with the aim of creating an app for Banco Popular. And we won 2nd place.
